

INTRODUCTION

At Inside Out Contacts, we offer three fabric ranges, as easy as A, B, C - each thoughtfully selected to ensure the highest quality and trend-forward palettes to suit your budget and deliver impeccable commercial upholstery.

Range C represents the pinnacle of our fabric offering, delivering premium performance, superior durability, and enhancec design for high-end commercial projects. Designed to excel in the most demanding environments, these fabrics combine cutting-edge technology with luxurious textures and the latest hues. Featuring advanced performance textiles, premium leathers and designer-grade weaves, Range C offers a sophisticated selection of colours and finishes to bring your vision to life.

Each collection includes detailed information on composition, fire retardancy, and added performance benefits, helping you find the right upholstery with confidence.

Performance & Sustainability Summary

- 

Aquaclean R – Technology allowing stains to be removed using only water.
- 

Crib 5 – UK fire test ensuring upholstery can withstand a simulated burning crib source.
- 

Stain Resistance – Fabric surface repels stains, making spills easier to clean.
- 

Water-resistant - Fabric resists light water exposure.
- 

Light Fastness – Resistance to fading when exposed to light.
- 

Flame Retardancy – Fabric resists ignition and slows fire spread for safety.
- 

Antimicrobial & Antifungal – Inhibits growth of bacteria and mould on the fabric.
- 

Washable – Fabric can be safely cleaned with water without damage.
- 

Recycled Yarns – Fabric made using yarns sourced from recycled materials.
- 

Everclean+ – Protective finish improving cleanability and durability.
- 

Halogen Free – Contains no halogen-based chemicals, reducing toxic emissions when burned.
- 

Recyclable – Fabric or material can be processed for reuse at end of life.
- 

Cal 117 – U.S. fire test standard ensuring upholstery can resist ignition from a smoldering heat source.
